RENEE PADGHAM

EXPERIENCE

Gigster: Senior Product Designer   2015 - present

Started design at the agency. Led design on internal Gigster platform features and led UX or full product design on 20+ projects for clients such as Johnson & Johnson, Fidelity, and Digit. Created personas, user flows, wireframes, high-fidelity mockups, and prototypes.

Draper Associates: Special Projects Lead   2014 - 2015

Worked with Tim Draper and other stakeholders to create innovative solutions to internal problems. Led design and development, from initial idea to implementation, on an internal portfolio management tool. Consulted on projects within the Draper network.

Hero City: Design Consultant   2014

Provided in-house design services for members and companies taking part in the Boost VC accelerator program, including product planning, wireframing, high-fidelity mockups, prototypes, and front-end web development. Led visual design in web and print materials for the co-working space, with a focus on graphics and illustrations. Creating themed material for events, conferences, and educational programs.

Darpdecade: Lead Designer   2013-2014

Developed product identity and branding, including custom iconography. Led user research, wireframing, prototyping, high fidelity design, and user testing for iOS, Android, and web products.

Designed by Renee: Founder, Designer   2010 - present

Created agency for branding, product design, and front-end development for web and mobile applications. Led the product process from initial planning through development implementation. Worked independently and managed teams with other designers and developers.
